## TELLS COUNTY HOME GROUP ABOUT PLANS

E. Donald Scott, chairman of the Adams County Commissioners, Tuesday afternoon outlined to the Auxiliary of the Adams County Home, at its monthly meeting in the home, plans of the county to construct a new home along the Biglerville Rd.

An advisory board, made up of Republicans and Democrats, was formed to consider the entire problem of the needs of the aged in the county, he told the auxiliary. The board was instructed to take into consideration the present county home set-up, the county farm operation, possible future needs of the aged, renovations and cost, and after making their study, report back to the commissioners with their findings.

Most of the findings and recommendations have led to either action or plans so far by the county, Scott said.

### Sold Livestock

The study of the advisory board on the operation of the farm showed that it was cheaper to purchase food and milk than to produce it, under the current and anticipated operation of the county home farm. The report also held that if the farming operations were halted the county farm land could be sold at possibly \$2,000 to \$2,500 per acre.

Following the recommendation, the commissioners have disposed of the equipment and stock of the county home farm, have sold 10 acres of land to the Gettysburg Joint School authority for a school, are seeking court approval to sell approximately 10 acres to WGET and are seeking offers for other pieces of land.

Scott stressed that sale of the land can be made only with approval.

## DR. M. E. BLOSS TELLS CLUB OF CRIME ACTION

Explaining the way of criminal behavior, Dr. M. Esther Bloss, professor of sociology at Gettysburg College, told the Gettysburg Exchange Club that former ideas that criminals were "alive with supernatural forces of evil" and later that their tendencies were caused by feeble mindedness have been discounted by intelligence tests.

Her address to the club, which is observing Crime Prevention Week, was in contrast to previous programs which concerned the criminal after the crime was committed. District Attorney Daniel E. Teeter and Sheriff Dawson Miller were guests of the club at its meeting Tuesday evening in Bankert's Restaurant. Dr. Bloss was introduced by Vice President Philip Neth.

"It was in the early 20th Century, with the advent of social sciences, that the modern theory of criminal behavior was learned," she said. "These theories replace the 19th Century thinking that criminals were born and could be identified by looking at them," she said.

**Born With Drives**

"We are born with certain drives," Dr. Bloss continued. "The baby has few; as we mature, we get more, and as adults we have many. These drives are internal physical and mental tensions. We learn to satisfy these drives as we grow up in our particular group."

Dr. Bloss explained the effect of family life and teaching which establishes the child's "conscience which tells him right from wrong, according to the group standards he has learned. If he has learned his lessons well, he doesn't need

## SOROPTIMISTS HEAR SOCIAL SECURITY TALK

Harry E. Smith, field representative for the Social Security Administration, spoke on Social Security and its benefits before the Soroptimist Club Tuesday evening at 6:30 o'clock in the YWCA.

The 28 members and guest who attended the banquet served by the Annie Danner Club of the "Y" heard Smith describe the growth of social security since the law was passed in 1935 becoming effective in 1937. "Today there is a trust fund of close to 24 billion dollars, invested primarily in government bonds. In this area alone \$175,000 per month is paid out in Social Security benefits. Minimum payments for individuals are now \$33 per month or \$50 to families and maximum payments are \$116 to individuals and \$254 to dependent families. These rates include the recent 7 percent increase," he said.

"Originally Social Security was planned to replace income lost through calamities or retirement of the breadwinner of a family. Only a limited number of people were covered — such as factory workers, store clerks, etc., but later it was expanded to include farmers, government employees and, in 1951, the self-employed.

The system will continue to grow and change as circumstances and the people demand.

**Not To Discourage Work**

"Payments can be made to retired male workers at age 65 or at 62 for women. Dependent

## RARE FILM OF HEART HALVES TO BE SHOWN

Unusual underwater movies of heart valves in action will be a feature of the heart lecture to be delivered here next Monday evening by Dr. Robert P. Glover, director of thoracic and cardiovascular research and surgery at Presbyterian Hospital in Philadelphia and faculty member of the University of Pennsylvania Medical School.

Dr. Glover will speak at a program at 8 o'clock Monday evening in the Gettysburg High School auditorium as the main attraction for the annual public meeting sponsored by the Adams County Heart Association. Dr. Glover's subject will be "Surgery's New Frontier — The Heart."

He will be introduced by Dr. Raymond F. Sheely of Gettysburg. There will be special music by a high school chorus directed by Paul W. Grove of the high school faculty and the Rev. Charles E. Held, executive secretary of the county heart association, will summarize its services during the last year.

Dr. Glover will be a guest at a dinner meeting of the Gettysburg Lions and their ladies in the high school cafeteria before the auditorium program.

Dr. Charles L. Wilbar, Pennsylvania's secretary of health, also will attend the luncheon where a brief talk will be given by William R. Skillen, director of public relations for the state heart association, on the services and program of the state organization and the progress in the fight against heart disease.

Tomorrow, February 12, the country will formally open the Abraham Lincoln Sesquicentennial year . . . it is the 150th anniversary of the birth of the 16th and first martyred President of the United States. In many cities programs, luncheons and dinners will be held to commemorate the occasion and to fire the opening salvo in a year's observance of the event.

In Springfield, Ill., Frankfort, Ky., Washington, D. C., Philadelphia, Pa., and in scores of other cities the name of Lincoln will echo through dignified and appropriate exercises.

In Gettysburg the formal opening of the Sesquicentennial year will be observed at a luncheon-meeting at the Hotel Gettysburg at 12:15 p.m.

How much interest Gettysburgians will evidence in the auspicious occasion remains to be seen. There may be 20 or there may be 200. It is to be hoped, however, that as many Gettysburg men and women (and residents of the county, too, because they are also invited) as possible will attend the luncheon.

Lincoln and Gettysburg are synonymous. They are linked forever in a common bond of patriotism and heritage. Hence, it is only fitting that Gettysburg's opening program should be a demonstration of this historic community's interest in the occasion.

Reservation at two dollars per plate may be made by calling the Hotel Gettysburg, Gettysburg 200.

**Women are cordially invited** to attend the luncheon. They may make their reservations at the hotel. However, men who plan to attend are urged to bring their wives.

WHAT FATHER KNOWS NOW  
By Robert Young  
Screen And TV Star

When our first daughter was born, 22 years ago, my wife, Betty, and I prided ourselves on being enlightened parents. We hoped for a large family, and had decided to be very modern, very intellectual with our children.

They were to have something we called "Christian Standards," by which I suppose we meant ethics, and to project the children in the right direction, we decided each would be christened in a non-sectarian church. But no church ties would be forced upon them: They were

Robert Young

to be allowed to choose for themselves.

As a young married couple Betty and I attended church only at the fashionable times of the year, Christmas and Easter. When I thought about it at all, I felt no need for constant church affiliation.

But we did want our children to have those Christian Standards! Thus, each of our four daughters in order of their appearance — Carol Ann, Barbara, Betty Lou, Kathy — was christened in a lovely ceremony right in our living room by the minister of the Beverly Hills Community Church.

**His Ignorance Showed**

And right there my ignorance was showing: had I entered the church proper, as I have since done, I would have observed on the bulletin board that the denomination was Presbyterian. But I didn't. Betty and I simply assumed that a Community Church was a Community Church.

## HANOVER MAN GOES ON TRIAL IN FATAL CRASH

Trial of Hanover mail truck driver Edward H. Krug Jr., 33, on a charge of involuntary manslaughter began in Adams County court this afternoon.

Krug was charged following a fatal accident December 13, near Hampton on the York Springs Rd. Ervin Levi Harbold, 53, York Springs R. 1 farmer, rural mail carrier and former school board official, was injured in the crash and died nine days later at the Hanover Hospital.

District Attorney Daniel E. Teeter in his opening remarks to the jury before noon said that Krug was driving a tractor-trailer north on the York Springs Rd. in an area where smoke from a field being burned off was blowing across the road.

The district attorney said Krug's truck was passing a flat truck loaded with steel when Krug crashed into the southbound car operated by Harbold.

### Ending Brawler Case

Hearing of testimony will not begin until later this afternoon, however, because of a charge to the jury scheduled in a prior case.

Trial of Franklin B. Brawner, Emmitsburg R. 3, on a charge of driving while under the influence ended at about 11:30 o'clock this morning. Judge W. C. Sheely, noting that, if he gave his charge then, the jury would be detained during the lunch hour, postponed giving the charge until 1:30 p.m. In the meantime, a jury was drawn for the Krug case so that it will be ready to start as the Brawner jury leaves the courtroom.

## NATIONAL PARK FOUNDED HERE 64 YEARS AGO

Today marks the 64th anniversary of the establishment of Gettysburg National Military Park. It was created on February 11, 1895, when Congress passed an "Act to establish a National Military Park at Gettysburg, Pennsylvania."

This act authorized the secretary of war to receive all of the land, rights of way, and property of the Gettysburg Memorial Association in exchange for \$2,000 or whatever lesser amount would discharge the debts of the association. The association had been incorporated by the Commonwealth of Pennsylvania in 1864 and had done excellent work at Gettysburg in subsequent years. Its holdings in 1895 amounted to approximately 800 acres of land dotted with numerous monuments and markers.

Headed by Colonels John P. Nicholson and E. B. Cope the War Department's Battlefield Commission continued the association's fine work. Additional land was acquired, avenues constructed and tablets erected. Cannon barrels, brought to Gettysburg from numerous arsenals, were mounted on cast iron carriages manufactured in Gettysburg in the foundry of Calvin Gilbert and placed on the battlefield.

The park was transferred to the Department of the Interior's National Park Service in August 1933. Since that time battlefield restoration has continued and the park has expanded to include 2,743 acres of land. Visitation has likewise increased from a low of 204,380 in 1933 to 734,878 in 1958. Further increases are predicted

## Speaks For Bill To Protect Skunks

Assemblyman Francis Worley's bill to close the season on skunks for two years in Adams and other seventh class counties has been returned to the committee on Wild Life Conservation for amendment to make it more extensive and cover a larger section of the state.

The bill, which Worley said he introduced at the request of an orchard manager who had spent \$4,000 on mice control, was up for debate on the House floor at Harrisburg Tuesday. Speaking in its support Worley said: "Adams County is the greatest apple producing county in the Commonwealth and as such it is necessary that its orchards be protected from destruction by mice." He said pine mice attack apple roots and meadow mice the tree trunks. Skunks destroy both kinds of mice, he said, and read a statement from Dr. T. L. Guyton, of the bureau of plant industry, that skunks also attack Japanese beetles and grasshoppers.

Worley said skunks can save county fruitmen thousands of dollars now spent for sprays and other measures against orchard mice.

to be told "outside" for he will know "inside" what to do.

"Some families teach criminal ways, but not many," she added. In his relationship with his parents, the child must feel he is loved, that he belongs, she said. "This begins his development as a personality." She said a child also needs a sense of recognition, growth and achievement, but that he will need to feel free and accepted. "At times he wants to be a baby, then again will want to be his own boss."

### Pampered Toughies

"Tough guys," she said, are "often pampered, although they appear to be aggressive." She attributed much of getting into difficulty with the law to insecurity which a child feels in breaking parental ties.

"I won't say a family is always to blame, for they are often engaged in activities too and accidentally ignore their children. While the family is not the only group important in making the criminal, it is usually the first step. A child unhappy at home is more drawn to patterns of delinquency," Dr. Bloss continued.

"Schools should be the next step since they get the youths at an early age. There they can learn to get along with others and give and take in groups. Truancy in schools is the main pattern to crime as children often get under influence of older boys. The school is not always to blame either, they are crowded and can't give the individual attention they should."

### Gang Problem

"Unhappy at home, dissatisfied at school, children can easily fall in with a gang on the corner. Again, not all gangs are bad, but the majority of gangs studied are delinquent. In the gang, the youngster may find his needs satisfied. Here he will get more admiration the tougher he is, more loyalty, companionship and discipline. This is a very attractive life to a child from a disorganized home. Here he can meet others his own age.

"Gangs are notorious for flourishing in the slums but really don't need a deteriorated area to survive. If the boy is unhappy and finds an anti-social gang, it is no wonder he is delinquent. It is a wonder how so many escape delinquency.

"In general, a happy, healthy, secure child with his parents, other adults and playmates very seldom with fall into delinquency, and one way to prevent delinquency is to make our children happy — healthy — and secure."

Terry R. Anderson, FBI special agent, Harrisburg, addressed the students at St. Francis Xavier Parochial School this morning and the Gettysburg High School student body this afternoon in connection with Crime Prevention Week observance sponsored nationally by the Exchange Clubs throughout the United States and Puerto Rico.

## TELLS COUNTY

(Continued From Page 1)

proval and "thus everyone in the county has due warning of any plans to sell, and any disapproval can be given to the commissioners or the court."

With funds on hand and funds raised by the sale of land, the commissioners plan to carry out another recommendation — that a new county home be built, he said.

### No Tax Increase

The study showed that renovation of the county home buildings would cost approximately \$200,000 according to the estimates of architects.

Further study showed a new building could be constructed for approximately the cost of major renovations and that the new building could be constructed in such a way it would decrease the number of attendants needed, care for the present number of guests at the home and be so designed that wings could be easily added at future dates as increases in the size of the county and the number of guests would dictate.

Study of the finances available showed that a new structure could be built without the need for increasing taxes, or sale of bonds, Scott said.

### To Get Federal Funds

As a result, the commissioners have gone ahead with plans to construct a new county home and either use the present buildings for various county offices, or sell them. Present indications are that the county will probably retain one of the buildings, or possibly two, and sell the others.

Hill-Burton federal funds will be available to help toward the cost of the new structure, Scott said. The commissioners have been assured by state and federal officials. He said conferences at Harrisburg with federal officials have led to one change in plans for the building. The infirmary section of the new county home had been designed originally as the usual number of bed-ridden and ill patients plus room enough for anticipated future increased need.

Hill-Burton officials, Scott said, showed national figures to indicate a trend toward greater numbers of infirm in county homes because of increased expansion of Social Security funds and increased longevity. Thus there is a trend of more persons waiting until they are too infirm to care for themselves before entering county homes.

### 80-Bed Capacity

As a result, a change in tentative plans has been made to increase the proposed area devoted to the infirmary.

The new structure will have about 80 beds, a central dining area, an area for recreation, a chapel, beauty parlor and barber shop and some small apartments for married couples who are guests at the home.

Introduced at the meeting were Mr. and Mrs. W. W. Jordan. Mr. Jordan assumed the superintendency of the county home at the beginning of the month.

Dr. H. W. Stenatal opened the meeting with prayer. A gavel was presented by Mrs. Fred Swisher for the Adams County Fish and Game Association to the County Home Auxiliary officers.

Mrs. J. Albert Blackburn, membership chairman, reported 74 organizations and 112 individuals have been enrolled in the current membership campaign. The auxiliary voted its thanks to all who donated Christmas cards and clothing.

Mrs. Ira Henderson, chairman of activities at the home, presented the following report: The January birthday party was conducted by the Rock Top Club of Cashtown with Mrs. Richard Kuhn, Mrs. Violet Deardorff and Mrs. Howard Sharrar present to distribute gifts and provide an ice cream treat.

### Many Groups Help

The Maude Miller Bible Class of St. James Lutheran Church, Gettysburg, accompanied by Miss Elsie Garlach and Mrs. Pearl Wiser, held a service in the Men's Building January 25 and provided a treat of candy and cookies. The class has adopted a program of conducting a service each fourth Sunday. Mrs. A. A. Maust is the class representative.

The other car, swerving to avoid Brawner's vehicle, sideswiped an embankment on the other side of the road and came to rest in a ditch.

Testimony of the occupants of the other car and a car following was that Brawner was intoxicated. Testimony of the proprietress of the tavern was that Brawner came into the tavern and she refused him drinks because of his intoxicated condition. Brawner said that his being hard of hearing and having a limp plus a normal thickness of speech led to his being thought intoxicated when he actually was not. ## 223 Persons At Lincoln Dinner

Monday Night: Abraham Lincoln was reluctant even during the "supreme crisis" of the Civil War to use his office of president as an excuse to assume the exercise of extraordinary powers not vested in him by the constitution, Everett Sanders, of Washington D. C., chairman of the Republican national committee, declared in an address at the Hotel Gettysburg Monday evening.

Speaking before an enthusiastic audience of 223 men and women at a dinner sponsored by republicans of Gettysburg and Adams county commemorating the one hundred and twenty-fifth birthday anniversary of the Great Emancipator, Mr. Sanders said Lincoln's idea of government and the integrity of the constitution prevented him from imposing his personal views upon the nation and still stand as "an idea of proper and patriotic conduct."

## Today's Talk

## BREAKFAST

Famous writers and philosophers have glorified the breakfast table. Why not? The world starts all over again at the breakfast table. It's a sort of cabinet meeting for the soul and its cohorts. For many years I went without my breakfast - but not by choice. Breakfast is really my de luxe meal - "be it ever so humble."

I have never been convinced that a hard day of toil with hands or brain is best begun on an empty stomach. To me, breakfast with a congenial group, a friend, or an acquaintance, is like a little run up to the gates of heaven for fresh air and inspiration.

There should always be a sincere jollity of heart at the breakfast table. There should be no hurry, no irritation, no complaining. If the postman brings the bills before breakfast they should remain unopened until after that first hour of lightness and cheer.

Breakfast should be simple and not heavy. You can't think with too heavy a strain on the noble stomach. Worry should be the one thing that should have no place on the breakfast menu.

I shall never want my breakfast in bed so long as I am able to find my way to the breakfast table. I remember spending the night at the home of a friend who has a big house and large grounds in the country. We had a delightful evening, but in the morning, shortly after I had awakened, there was a knock at the door and the butler entered with a tray and steaming breakfast. But, oh, the disappointment! I was to miss the touch of friendship and interchange of talk with my friends. Even the sunbeams that streamed through the large windows looked disappointed. A large part of the fun and happiness of a guest is to meet him next morning at the breakfast table. May breakfast never go out of date or grow old-fashioned.

Tomorrow, Mr. Adams will talk on the subject, "Compensations." Protected 1959, by The George Matthews Adams Service.

## A SPOILED AFTERNOON

She seemed to be ready to cry. And frequently quivered her chin;

For a minute she didn't reply When we said to her: "What did you win?"

Did you come back to us with the prize? Did you have a good time at your club?"

Then she said, as she choked back her sighs: "The partner I had was a dub."

Then her pent-up emotions let loose And she told the sad tale of the day:

"It wasn't the least bit of use To make any effort to play. There were tricks that she knew she could get,

Her opponents she knew she could drub, Yet they walked away with each set;

The partner she had was a dub. "It was awful to sit there and see The things that that woman would do.

The leads she would make back to me Showed plainly how little she knew. I tried to be nice, don't you know?

I realized she was a sub, But it's dreadful to see the tricks go Just because you are teamed with a dub!"

## DRAPERY ADDS NEW LIFE IF CHOSEN WELL

## By MRS. HELEN TUNISON

## Associate Home Economist

A new personality enters your home when you hang new draperies at a window. Since this personality is here for a long stay, it's best to look for traits which will be as pleasing five years from now as they seem to be when the draperies are newcomers.

No matter how nice they are as colors and patterns, unless their personalities suit your room, draperies will become irritating nuisances. You'll soon find that you're tired of them.

It's easy to test draperies before you buy them and put them on the rods. The right color choice depends on other colors in the room - particularly the big areas of wall, rug, and furniture. For a long-term friendship among all the colors, choose those quiet in effect for larger areas; make the small accents the brighter and stronger colors.

## Effect At Night

Think about the night-time personality of drapery pattern and color. They give one effect when they frame the sides of the window in the daytime. Make sure the effect is as pleasing when the fabric covers the entire window, particularly if yours is the window-wall variety. A color which is much darker or lighter than the rest of the wall may give the windows a pleasant frame, but a color nearer in value to the wall may be more pleasing in a large amount. A striking pattern may catch your fancy at the store, but may have three strikes against it when you realize you will look at it night after night for years.

Often we're bored with colors and patterns in a room because our eyes are confused with too many - each shouting for attention. So choose draperies for your home which unite the furnishings' personalities into a friendly meeting.

To turn all eyes on a beautiful drapery and not on a dip or scallop on the hemline, try this beauty tip for hemming or for rehemming draperies after you've laundered them or have had them dry cleaned.

## Use Steam Iron

Use an ironing board and steam iron - with long extension cord - right at the window for pressing, and hand sewing hem, this pressing hemming procedure at the window is best for floor-length draperies, but can be used for low sill-length as well.

Start hemming when you've hung the drapery and measured the desired length from the floor with a skirt marker or yardstick. Mark with pins just as you do a skirt hem. Place ironing board parallel to window and lift drapery up on it. Turn bottom edge back on right side of fabric several inches and you can handle hem easily without working in reverse. Press hem allowance toward inside on pin line; then turn half the allowance back in toward fold to give double thickness hem; pin pressed hem in place. As you press and pin, move the ironing board along with you.

When this step is finished, you're ready to hand sew the hem. Lay bottom of drapery flat on the ironing board and again turn enough fabric back so you can handle hem easily from the wrong side. Slip a strip of wrapping paper or cardboard between the fold-back and drapery to avoid stitching through drapery. Work from left to right and sew with the catch stitch. Move board along as you did for pressing.

## COMISKEY IS CRITICAL OF RIGNEY, VEECK

CHICAGO (AP) - Chuck Comiskey, suffering a slight setback in probate court Tuesday, criticized the parties involved in the upcoming sale of the Chicago White Sox.

Comiskey, a co-vice president of the team along with his brother-in-law John Rigney, criticized Rigney and prospective buyer Bill Veeck.

He took aim at Rigney and his sister Dorothy for vacationing in Florida "when certain matters concerning the club have to be decided every day."

Veeck was the subject of criticism for "making changes in the organization" without owning a single share of stock.

Comiskey's outburst came after Probate Judge Robert Jerome Dunne denied a motion by Comiskey's attorneys that Dorothy be restrained from distributing stock to herself from the estate of their mother, Mrs. Grace Comiskey.

Judge Dunne based the denial on the grounds there was no indication Dorothy planned to ask the court for a distribution of the stock.

Veeck holds an option, which expires Feb. 18, to buy Dorothy's shares which make up 54 per cent of the club's stock.

## Blast Veeck

Comiskey blasted Veeck after a report had Veeck naming Hank Greenberg as the team's farm director after he has purchased the club.

"There is a fellow (Veeck) who doesn't even own one share of stock in the White Sox as yet and he's making changes in the organization," said Comiskey. "We are trying to do a lot of work and one of our key men (farm chief Glenn Miller) reads in one of the papers that somebody else is going to take his job."

"No change in personnel is contemplated. But if there is one, the individual will be notified first," Comiskey added.

## U. S. Hockey Team Told To Shoot More

OSLO (AP) - The U. S. national ice hockey team, unbeaten in six warmup games for the March 5-15 world championships in Prague, Czechoslovakia, departed for Sweden today under orders to "shoot more."

"Our boys do not shoot enough," said Coach March Ryman, a Minnesota business manager. "We are shaping up fine. But we still have our problems."

spouses are also eligible as well as dependent children under 18 and widows and widowers.

There is also a lump sum death benefit, \$255 maximum, and in cases of extreme disability there can be benefits paid at the age of 50. Payments are determined by a complicated formula which takes into consideration the average monthly income earned by the worker during one of two periods - i.e. from 1937 to date of retirement or from 1951 to date of retirement - whichever is higher. The amount aid is not designed to cover the individual's entire living costs or to discourage able-bodied people from working. This would place too heavy a tax burden on our citizens. It is meant to supplement the older workers' diminishing income and make retirement easier. Women up to 72 years of age and men up to 75 may earn \$1,200 per year without losing their social security benefits. Beyond that age there is no limit on the income they may earn.

Smith stressed the importance of "checking social security account each year or at least every 3 years with the headquarters office in Baltimore, Md. Cards for this purpose are available from the local bureau. If you thing you are eligible for Social Security, see your local representative. The government can not seek you out; you must take the initiative in making application.

## Can Mean Great Deal

"Social Security can mean a lot to you. In some instances it could be as valuable as a \$50,000 insurance policy with survivors', disability and retirements benefits - and it could cost as little as \$250."

The meeting was in charge of the Public Affairs and Public Relations Committees of the Club, Miss Evelyn Altoff and Mrs. Donald E. Myers, chairmen. Miss Altoff acted as toastmaster and the invocation was given by Dr. Elizabeth R. Gregg.

Tornadoes also hit areas in other parts of Missouri, Illinois, Indiana, Ohio and Kentucky. Six persons were injured in Kentucky and five in Ohio. Many homes were damaged.

The floods in the northern half of Ohio and in the upper Wabash Valley in Indiana were the worst. Thousands have been forced from their homes. A state of emergency was in effect at Findlay and Van Wert, Ohio. The overflows in Indiana were the most damaging since 1943.

as the centennial year of 1963 approaches.

## Expand Park Areas

To meet the increased demands of visitors to the 180 national park areas, the National Park Service has instituted Mission 66, a long range program designed to develop park areas to their peak of visitor service by 1966. Mission 66's program for Gettysburg National Military Park has already resulted in the resurfacing of several miles of roadway and the construction of a new bridge over the railroad cut.

Work remaining to be done includes the erection of a visitor's center, which will house the Gettysburg Cyclorama, exhibits and park administrative offices; the relocation and resurfacing of other avenues, and further restoration of the battlefield. Ten field exhibits, each of which consists of a battle map, a narrative of the action occurring at each location, and contemporary photographs, have already been erected as visitor aids. A system of battlefield tour markers enables the visitor to follow a defined route to the several areas of historical interest.

Members of the planning committee headed by Mr. Burkholder include Jack R. Corbin, Mrs. Anna D. Stahlke, Mrs. Virginia P. Ward, Donald A. Ullrich, Paul R. Mehring, Robert S. Sheads, Edwin S. Longenecker, Mary E. Smith, Lois W. Peterson, Nancy V. Kirk

## GHS Suffers 78-60 Loss At Waynesboro; JV's Bow; Raiders Here On Friday

Breaking the game wide open with a 27-point second period, the Waynesboro High dribblers trounced the Gettysburg Warriors 78-60 in a South Penn League game Tuesday evening at Waynesboro.

Waynesboro's fine one-two scoring punch, Tuck Shade and Mike Crist, poured 27 and 20 points through the hoops to lead the Indians to their triumph.

It was the fourth straight loss for Gettysburg and tumbled its overall season mark to 5-11.

The Warriors put up good opposition in the first period despite trailing 20-14 at the end of the round. Shade and Crist landed four and three goals, respectively, to keep Waynesboro in front. Gettysburg kept in contention via a pair of goals by Sid Weikert and one each by Tom Crist and Bob Furney. The Warriors connected on six of six foul tries during the period.

Shade ripped the nets for 14 points as the Indians took complete command in the second stanza to lead 47-31 at half time. Hardy Nichols and Mike Small bore the brunt of the Warriors' offense with six and five points.

Another big period at the start of the second half left no doubt as to the ultimate outcome. This time Shade was the big gun for Waynesboro on 12 points. The score stood 76-45 going into the last round.

Small and Furney led the Warrior scoring with 16 and 13 points.

The local junior varsity fell apart in the last period to lose the preliminary 50-34. At the end of three periods the jayvees trailed only 34-31 but could muster only three points in the final frame. Don Waddell was high man for the Warrior scrubs with 14 points.

Middletown High will be here for a doubleheader on Friday.

## Diplomats Here For Two Games This Evening

One of the season's largest crowds is expected at the Gettysburg College gymnasium tonight when the Bullet cagers tangle with their arch rival, Franklin and Marshall.

Both teams have hit winning strides recently. The Bullets are up to 8-9 after winning six of their last eight starts. F. and M. is enjoying a prosperous campaign with a enviable 7-3 record following decisive victories over Western Maryland on Saturday and highly regarded Moravian on Monday.

Bullet statistics reveal Del Warfel as the leading scorer and rebounder with 305 points and 248 rebounds in 17 games. Walt McGowan is second high in scoring with 281 tallies while Grank Grzelecki trails Warfel in rebounding with 244.

The freshman teams will meet in the preliminary at 6:45.

## VIRGINIA TECH STAR IS AMONG TOP FOUR NOW

By BEN OLAN  
Big Bob Ayersman of Virginia Tech has pushed his way in among the top four college basketball scoring leaders while helping produce a threat to West Virginia's domination of the Southern Conference.

The 6-4 sophomore from Boomer, W. Va., scored 47 points Tuesday night to lead Virginia Tech to a 104-66 victory over Richmond. Ayersman tossed in 17 field goals and 13 free throws to set a school single game scoring record.

Ayersman hiked his season's total to 478 points and a 28.1 average for 17 games. The only major college players ahead of him are Oscar Robertson of Cincinnati 32.5, Leo Byrd of Marshall 29.8 and Jim Hagan of Tennessee Tech 29.0.

The victory gave Virginia Tech an 8-2 record in the conference. Ayersman's performance, the 80-72 victory by sixth-ranked North Carolina State over Duke and the end of Missouri's 11-game losing streak were among the noteworthy developments on Tuesday night's program.

Lou Puccio, North Carolina State's 5-9 guard from Philadelphia, scored 27 points as the Wolfpack picked up their 17th triumph against two setbacks.

Missouri Wins  
Missouri broke the longest losing streak in its history by turning back Oklahoma State 51-44. Missouri won the game at the free throw line, canning 13 of 16 while Oklahoma State managed only 6 of 13. It was Missouri's first victory since beating Rice last Dec. 18.

George Washington came from behind a seven point halftime deficit, tied the score with 53 seconds remaining and defeated Maryland in overtime 66-65. Bill Telasky's jump shot got George Washington even in regulation time. Then Bucky McDonald took over, scoring eight of the Colonials' nine points in the extra period.

In the Southwest Conference, Wade Wolfe scored 15 points before fouling out early in the second half to lead Texas Tech to a 76-54 triumph over Texas and Southern Methodist edged Baylor 54-50 in a tight game during which the lead changed hands 15 times and the score was tied 14 times.

Near Clinching Title  
Eastern Kentucky virtually clinched the Ohio Valley Conference championship by whipping Morehead, Ky. 95-77.

In other action, Don Hennon, who has a 27.2 points average for 20 games, had 26 to lead Pittsburgh to a 76-65 victory over Carnegie Tech; Davidson beat winies (6-12) Washington and Lee 84-75 in overtime; Boston University won a fast break to defeat Connecticut for the first time in 24 years, 67-55, and St. Francis (N.Y.) defeated Seton Hall 67-58.

Va. Tech Soph Is 4th Cager Scorer  
By THE ASSOCIATED PRESS  
A 47-point school record burst by Bob Ayersman against Richmond last Tuesday night moved the Virginia Tech sophomore star into fourth place among the nation's major college basketball scorers.

Statistics from the NCAA Service Bureau show Ayersman with 478 points in 17 games for a 28.1 average. He jumped up from sixth place over Bailey Howell of Mississippi State and Don Hennon of Pitt.

Hennon hit for 26 points Tuesday night but slipped to sixth with a 27.2 average. Jim Hagan of Tennessee Tech, the only other top 10 scorer in action, had 23 third place although this average tumbled from 29.3 to 29.0.

Oscar Robertson of Cincinnati, who is idle all week, remains the leader with a 32.5 mark for 18 games. Marshall's Leo Byrd is second with 29.8 for 17 games.

Gettysburg Junior High put on a strong finish here Tuesday evening but couldn't make the grade and dropped a 31-28 decision to Waynesboro in a South Penn League game.

The Braves played greatly improved ball but trailed 25-16 going into the last quarter. They outscored their opponents 12-6 in the last stanza but went down to their eighth straight loss without a victory.

Dick Utz bombed the cords for 15 points for Coach Ned Brownley's team while Martin Smith collected the same number for the winners.

Gettysburg's reserves took an overtime 31-26 verdict in the preliminary for their third win in eight starts. The score was tied 26-26 at the end of the regulation game. Paul Olson netted a goal and Eddie Zeigler a foul and goal in the extra frame to clinch the verdict.

The Braves will be idle until Friday, February 20, when Chambersburg will play here.

Shingling led the Mount to an early 11-9 lead but the Eagles, sparked by Bill Brunner, spurred and the lead changed hands several times during the half which ended with American holding a narrow 37-36 lead.

American led by a narrow margin throughout the second half. The Eagles' margin was secured from the foul line where they netted 25 points as compared to but nine for the Emmitsburg outfit.

Shingling bombed the cords for 26 points while Jerry Savage added 24. Beaucamp, Brunner and Jones netted 22, 21 and 21 for the winners.

The Mount journeys to Chestertown Thursday evening for a conference game with Washington College.

## SEE BIG GATE AT COW PALACE

SAN FRANCISCO (AP)—The National Basketball Assn. takes another look at West Coast interest tonight when the Minneapolis Lakers play the Cincinnati Royals at the Cow Palace.

The NBA is mulling proposals to move a couple of teams to the West, or to expand and place teams in the West and Southwest.

In the first western NBA game last month, 13,652 fans saw the Boston Celtics whip the Lakers 109-106 in overtime. The lure for that one, however, was not only the great Bob Cousy, but ex-San Francisco stars Bill Russell and K. C. Jones. All three are with Boston.

A preliminary game between musclemen from the San Francisco 49ers and Los Angeles Rams football teams should help the game.

Vern Mikkelsen led the Lakers to a 118-100 victory in their Houston affair with a career high of 43 points. It was the only NBA game. St. Louis was scheduled at Detroit but bad weather forced down its plane at Harrisburg, Pa.

## 179 Exhibition Games Scheduled

CINCINNATI (AP)—The days of long spring training "barnstorming" trips home for National League baseball clubs appear near an end.

The league said today its eight clubs will play 179 exhibition games this spring, but all except 18 will be played in the spring training states of Florida and Arizona.

The Pittsburgh Pirates and the St. Louis Cardinals won't play any games en route home from the spring training bases at Fort Meyers and St. Petersburg, Fla., respectively.

The Cincinnati Redlegs, Los Angeles Dodgers, Milwaukee Braves and Philadelphia Phils each have scheduled two games en route home.

## Bigler Matman

Luther Harmon, 138-pounder, will carry a 4-2-2 season record into Thursday's wrestling meet when the Biglerville Cannons entertain York at Biglerville in a Section 2 contest. The Cannons star has had two years of experience.

## MOUNT HALTED BY AMERICAN U. CAGERS 87-77

Mt. St. Mary's drive for a playoff spot in the Mason-Dixon Conference hit a roadblock Tuesday evening when American University took an 87-77 contest at Emmitsburg.

The defeat snapped a three-game winning streak of the Mountaineers and left them with a 5-4 league record and 9-12 overall mark. American is 8-2 in the conference.

Bert Shingling led the Mount to an early 11-9 lead but the Eagles, sparked by Bill Brunner, spurred and the lead changed hands several times during the half which ended with American holding a narrow 37-36 lead.

"You are," I told my daughters proudly, "free to choose your own religion." But I was as foolish as I was wrong. No real choice was being offered them, no habit of church going was being developed.

Fourteen years—14 long years—elapsed before any one of the children decided upon anything or even mentioned a specific church.

**Wanted to Join Church**  
Then from boarding school Carol Ann wrote us a letter. Would we mind, she inquired, if she joined the Episcopal Church?

"It isn't sudden," wrote Carol Ann. "I've always had a tremendous respect for our chaplain, and I must admit it was his faith that made him what he is. So I began studying the service, trying to understand the words and the symbolism, and now they have great meaning for me. I truly love the service, and it gives me something I need."

A few weeks later we attended her confirmation.

During that summer vacation, each Sunday while mother and father and all her younger sisters slept, our 15-year-old daughter rose quietly and went to All Saints Church in Beverly Hills. Then, out of deference to Carol Ann, Betty and I began attending with her. The younger girls, still free to make their choice, now chose to get up and go to church school.

In one short summer we became

## Sun Life of Canada Sells Record \$990 Million in '58

Over \$8 billion life insurance now in force;  
\$36 million for policyholder dividends in 1958.

More life insurance sold by the Sun Life Assurance Company of Canada in 1958 than in any other year in the 88-year history of the Company was one of the highlights announced by George W. Bourke, President, in his review of Sun Life's business for 1958. Much of this record figure of \$990 million was purchased in the United States, where the Company has 34% of its business in force. Included in the new business figure was \$265 million of group insurance. During 1958, life insurance in force in the Company passed another milestone and, at the end of the year, amounted to \$8,357,000,000, which is more than double the amount in force ten years ago. In 1949, the Sun Life will pay out \$36,200,000 in dividends to policyholders, an increase of \$24 million over that paid out in 1958.

Last year, \$159 million, or 627,000 every working day, was paid to policyholders, annuitants and beneficiaries. Of these amounts, nearly \$110 million was paid to living policyholders and annuitants, and \$49 million to the beneficiaries of deceased policyholders. The benefit payments made by the Company since it commenced business now total \$3,455,000,000.

The report also reveals that completely revised scales of premium rates have just been introduced for new business in the United States. These new rates involve the principle of grading premiums by amounts of insurance, and also reflect the further improvement in mortality which has taken place in recent years. Existing holders of participating policies benefit from improvement in mortality through the

periodic revisions in dividend scales. Mr. Bourke reported that the death rate among Sun Life policyholders in 1958 was slightly less than in the previous year, thus continuing the favorable trend of recent years. Research, which life insurance companies aid in financing, continues on heart disease and cancer, which account for over 75% of the Company's death claim payments, as compared with 60% twenty years ago. The proportion of death by accidents, the third ranking killer, rose from 6% in 1957 to over 8% during the past year. Mr. Bourke also spoke about the corrosive effects of inflation on the dollar, and urged the old-fashioned practice of "thrifting." "To the policyholders of the Sun Life," he said, "and to the tens of millions of other life insurance policyholders, this is not a new word. By your personal belief in the independence of providing for oneself, you are exercising thrift; you are withholding dollars from today's income in order to send them ahead to provide tomorrow's needs and comforts. It is, however, our duty as your insurer, and the duty of each of us as citizens, to help our governments to exercise thrift in our national affairs and to maintain the integrity of our currency. A stable dollar is vital to a healthy and dynamic economy."

A copy of Sun Life's 1958 Annual Report, including the President's review of the year, is being sent to policyholders, or may be obtained from L. V. Drury, Branch Manager, 121 South Broad St., Philadelphia 7, Pa., or J. C. Stahl, Representative, 98 Springs Ave., Gettysburg, Pa.

## ASKS PROBE OF HAGERTY IN FCC RADIO CASE

WASHINGTON (AP)—The man who ignited last year's dramatic Sherman Adams case now wants Congress to investigate White House press secretary James C. Hagerty.

Dr. Bernard Schwartz, a former House investigator, called for the probe Sunday after accusing Hagerty of stepping into a television case for political reasons. Hagerty immediately denied this.

"Mr. Schwartz was either misinformed or was deliberately lying," he said.

The case, as outlined by Hagerty's documents, followed this sequence:

On March 1, 1957, William J. Embler, a Republican and research consultant to the speaker of New York's State Assembly, wrote Hagerty protesting an FCC decision to change station WRGB from a very high frequency (VHF) station to an ultra high frequency station (UHF).

"As one who is not a stockholder in anything but is concerned with the success of the Republican party it would seem to me that some consideration should be given to the fact that such a change will leave many families without television because UHF can not reach them and will put many others to the expense of conversion or buying new sets," Embler wrote.

He followed with a similar note three days later. On March 5, Hagerty answered the letters, saying, "You do have a good point. I have passed your letter along to the interested people here and asked them for an answer."

The same day, Hagerty sent a note, marked "personal," to George C. McConaughy, then chairman of the FCC. It said: "I received the attached letter from a personal friend of mine in Albany. I thought you would like to see it. Is there any way I can answer him?"

In a long letter March 13, McConaughy answered Hagerty. He explained the FCC had embarked on a policy of making television areas either all VHF or all UHF. Since most of the stations in the Albany-Schenectady area were UHF, the commission wanted WRGB to change to UHF also.

Hagerty said there was no further correspondence in the case. The FCC later changed its proposal and, after a series of decisions, allowed WRGB to remain a VHF station. It balanced the situation, however, by adding a second VHF station to the area.

and answered prayer. I think my reaction has been much like that of our youngest daughter, Kathy, who knelt to say her evening prayers with us shortly after her ninth birthday.

She asked blessings for everyone—her mother, myself, her sisters, the neighbors, her school teacher, the dogs. Then she started on her request list. That was pretty long, too. It wound ed like an enthusiastic letter to Santa Claus.

Suddenly there was a pause and I heard Kathy say, in a small, meek voice: "And now, dear God, is there anything I can do for you?"

## Record Arrests By Fish Wardens

HARRISBURG (AP)—Pennsylvania fish wardens made 1,879 arrests—a record—for fish law violations during 1958.

The State Fish Commission said the arrests brought in \$43,640 in fines.

In a weekend report on the less sporting side of the sport, W. W. Britton, chief of the commission's Law Enforcement Division, said about a third of the arrests, 536, involved motorboat operators. The arrests mainly were for violations of safety and license rules, he added.

## GIVES PRAISE AND CENSURE TO TV PLAY

By CHARLES MERCER

NEW YORK (AP)—A good drama has emotional impact and makes some statement about life.

The trouble with so many dramas in the current television season is that they sputter emotional fireworks all over the sky and fail to illuminate anything of consequence.

These generalizations bring us to the subject of "The Third Commandment." Ben Hecht's first hour-length teleplay, which was presented on NBC-TV Sunday.

To dispose of the formalities, this Jess Oppenheimer production was excellently produced, directed and acted. It struck one with great emotional impact. But what was Hecht trying to tell us?

I, for one, don't know. It was the story of a Hollywood gag writer, Jim Mundy, well played by Arthur Kennedy, who lost his moral perspective when he began to make a lot of money.

His wife, an idealistic minister's daughter played by Anne Francis, left him in disgust.

Technically superb. Getting drunk, he went to an evangelist meeting where he pretended that he'd found sudden salvation through belief in God.

Thus he broke the Third Commandment by taking the name of God in vain. His insincere statements captured the emotions of many presumably sincere people.

Fired as a gag writer, he became an evangelist for the sake of money and finally decided grandiosely that he had healing powers. In the last scene he suddenly changed his attitude and confessed to a vast crowd that he was a fraud. He barely escaped with his life when assaulted by a mob of the ill who had hoped he would cure them.

"The Third Commandment" mounted its emotional scenes swiftly and powerfully. Technically it was superbly done, with many memorable lines.

Yet it is likely to be condemned and admired for wrong reasons. Some may condemn it as an attack on extreme emotional forms of religion. Others may praise television's courage in presenting a drama that attacked religious hypocrites.

Personally, I'm convinced this was not Hecht's purpose. He was primarily concerned with one man, an ambivalent creature who acted evilly and then for reasons as obscure as ashamed of himself and tried to rectify his wrongs.

But a play requires some motivations that I failed to find in this one.

The drama's swift pace and intensity carried it over many of its absurdities. But more than emotion is necessary to make a first-rate drama, on television as much as in the theater.

## \$750,000 FIRE IN VERMONT

BENNINGTON, Vt. (AP)—The only movie house in Bennington and several businesses and offices were destroyed by fire early Tuesday.

Lost to the flames were the General Stark Theater, the offices of the state's attorney, and the federal Internal Revenue Service. Joy's department store, a toy shop, a sandwich shop, a flower shop and the Bennington Social Club.

All were in one big three-story brick building on Main street.

Damage was estimated unofficially at \$750,000.

The roof of the theater and all the floors of the building collapsed. No one was hurt.

The blaze raged out of control for more than three hours as firemen handicapped by freezing rain, sought to keep it from spreading.

Bennington is in the southwest corner of Vermont not far from the New York state and Massachusetts borders.

## LIVES 5 DAYS MINUS FOOD

NEWPORT, R.I. (AP)—Rose Bondell, 63, survived at least five days in an unheated apartment without food or water.

Her condition, however, was described Tuesday as critical, with her body temperature so low medical thermometers do not record it.

A doctor at Newport Hospital said thermometers go only as far as 94 degrees—4.6 degrees below normal.

He said Mrs. Bondell also suffered from dehydration and frostbite of the legs. He said it may be necessary to amputate the legs.

Mrs. Bondell collapsed last Wednesday or Thursday, and was unable to summon help or feed herself.

The temperature in Newport has been below freezing practically all the time since last Thursday. It was 4 degrees Monday morning.

Neighbors, concerned because they had not seen Mrs. Bondell, summoned police who broke down the door and found the woman.

MIDDLETOWN, R.I. (AP)—Navy Cmdr. Richard N. Niles, 41, died Monday as he apparently tried to rescue his wife and four children who already had made their way to safety from a fire which destroyed their historic old home in Forest Avenue.

Niles' body was found in the kitchen by firemen. They rushed him to the Newport Naval Hospital where he was pronounced dead of asphyxiation.

## James MARLOW Reports

The Associated Press

WASHINGTON (AP)—Time and events between now and 1960 will affect chances of both Vice President Richard M. Nixon and New York's Gov. Nelson Rockefeller for the Republican presidential nomination.

The pressure of events, and the two men's responses to them, will almost certainly raise or lower their political attractiveness, at least as compared with each other, before it's time for the Republican nominating convention.

The very nature of the vice presidency ordinarily leaves the holder of that office overshadowed by the White House and with little more to do than preside over the Senate. So Nixon might seem the one least likely to be affected by events and therefore best able to retain what popularity he already has.

## Two-Year Test

Rockefeller's job requires more direct action. The governor's leadership, his administrative ability, his policies and his thinking and therefore his voter appeal will undergo in these next two years both testing and examination.

He can't stand still. His performance as governor of the nation's richest and most populous state will tend to increase or diminish his presidential prospects, since voters of both parties around the country will be watching him.

He has already shown a willingness to stick his neck out. Almost his first action as governor has called forth protests by some voters who would be affected by what he wants: he has asked the Republican-run legislature for a 277-million-dollar tax increase, including a boost in income taxes.

## Seeks To Avoid Deficit

His reasoning: he wants to avoid a deficit in state spending and balance the budget while still providing enough funds to avoid cutting some state social programs, like aid to education and localities. He has a fight on his hands and at this moment can not be sure of winning.

Nixon, whose job calls for little need to stick out his neck, could rock away his time in the Senate, avoiding stands on controversial issues which might cost him popularity.

But Nixon is an aggressive man. He may feel it necessary for him to take sides—or he may feel forced into it as a member of the Eisenhower administration—on issues pending before Congress and involving various Eisenhower programs and policies from civil rights to defense and controlled spending.

## Boost Or Bruise

Aggressive stands on such issues could boost him or bruise him, particularly since organized labor and business would have an interest in most of the issues.

The President already has given him an assignment which could af-

## URGE TRANSFER OF HOSPITALS

HARRISBURG (AP)—Transfer of 10 state-owned general hospitals in the coal regions to local control was recommended Monday to Gov. Lawrence.

The recommendation was made in a report to the governor by a special committee named by former Gov. Lawrence on details of the merger of the former Department of Assistance and Welfare into one Department of Public Welfare.

The hospital recommendation was one of six major ones made in the report, which was submitted to Lawrence at a meeting here.

The committee said in its report the transfer should be made within four years—but that until it is completed the hospitals should remain under state control.

Such a recommendation to reduce state costs has been made previously in other studies of the state government, but without action.

## ALLIES AGREE ON PROCEDURE

WASHINGTON (AP)—Secretary of State John Foster Dulles said Monday the Western Allies have agreed generally on procedures to follow if the Soviet Union invokes "physical means" to block access to Berlin.

He also renewed the West's offer to talk about a general settlement.

"We are willing to talk with the Soviets in a sincere effort to reach agreements," he said.

Dulles returned to Washington after talks at London, Paris and

fect his 1960 chances and lies in the same field—economics—which has Rockefeller involved now.

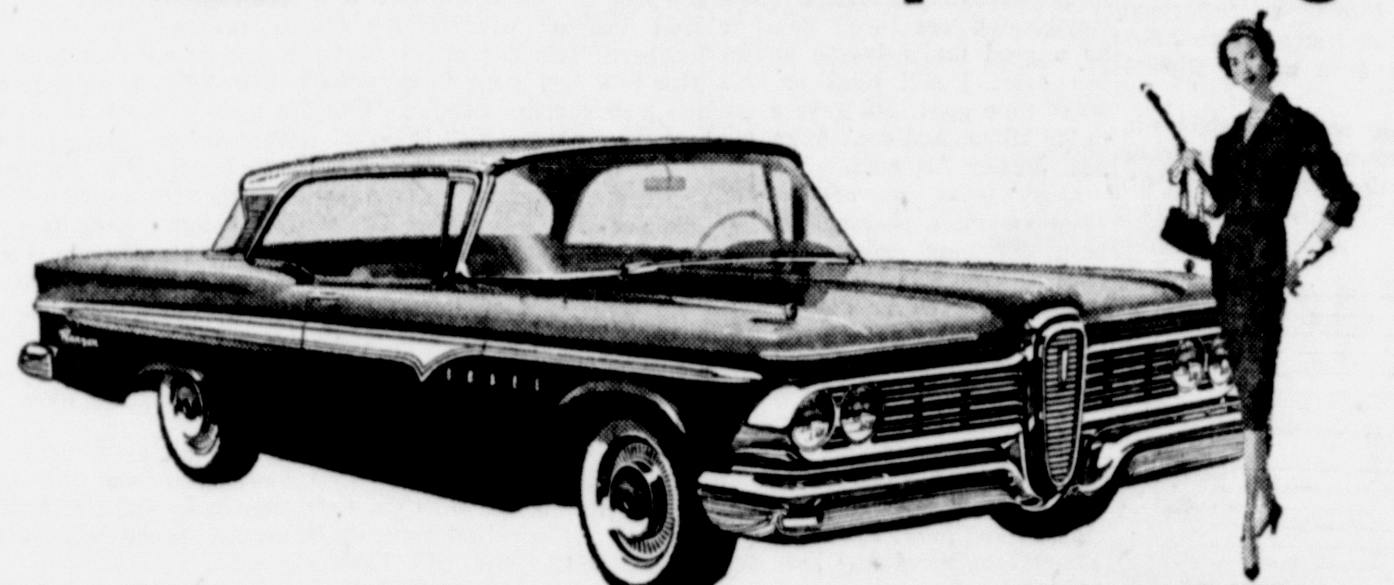

The President named him chairman of a Cabinet committee to examine the problems of inflation and seek ways to maintain reasonable price stability while sustaining economic growth.

## FLOODS SWEEP THROUGH OHIO AND INDIANA

INDIANAPOLIS (AP)—The worst floods in 16 years sent hundreds of families from their homes in the upper Wabash River Valley today and closed roads throughout the area.

Volunteers joined with police and National Guardsmen to rescue stranded residents at Logansport, Delphi, Georgetown and Wabash.

Flood waters covered a 30-block residential area and an 18-block industrial area in Wabash. The city faced danger from ice moving down the Wabash River, threatening bridges and the waterworks.

### Must Bail Water

A 10-mile ice jam has stacked up 35 feet high below Georgetown, near Logansport.

Broken water mains contaminated the water supply at Huntington. Health officials at Wabash asked residents to boil all drinking water.

Two weather-connected deaths have been reported. A farmer in southern Indiana was electrocuted when he touched a wire fence charged by a fallen power line. At Lafayette, a man died evidently from a heart attack while pushing his car from a flooded street.

### New Ohio Floods

COLUMBUS, Ohio (AP)—Ohio's northern cities were imperiled by new floods today for the second time in less than a month. In one city alone, Fremont—still in a state of emergency from Jan-

uary's inundation—between 1,200 and 1,500 residents have been forced from their homes by the two floods.

The new floods hit chiefly in northern Ohio where rainfall Tuesday amounted to three inches in places.

On Jan. 23, two days after the previous floods began, the governor proclaimed all of Ohio in a state of emergency. In the present inundation, three communities and one county were placed in states of emergency.

### Report Two Deaths

At least two deaths—one a drowning—have resulted directly or indirectly from the new floods.

At Findlay, with a population of 24,000, the Blanchard River crested late Tuesday night at more than nine feet above flood stage, about a foot higher than the January mark. Approximately one-fourth of the city was covered with water. Civil Defense officials said about 200 persons are known to have evacuated.

A drowning was reported near Tiffin. Kenneth Wolcott, 21, a Heidelberg College senior, was missing and presumed drowned after his canoe capsized in the Sandusky River.

In Findlay, another death was attributed indirectly to the flood. G. Clyde Wolfe, 70, suffered a fatal heart attack while trying to bail out his basement.

## "PETER GUNN" STARTING NEW FASHION IN TV

NEW YORK (AP)—"Peter Gunn" is starting a new fashion in television series.

In its story line the NBC-TV weekly series (Mondays, 9 p.m., EST) is routine, run-of-the-mill private eye. But a couple of ingredients have been added that are creating "Peter Gunn" fan clubs among the cool younger set.

The ingredients are (1) jazz and (2) sex. Before (2) impels alarmed parents to drag Jane or Junior from the set, it should be said that it's pretty harmless stuff. Gunn, played by Craig Stevens, smooches around some with a beautiful blonde played by Lola Albright.

### Original Music

By far the most important ingredient of this series' popularity, however, is jazz. The show's producer, Blake Edwards, credits 50 per cent of the program's success to its live, original music.

The composer and director of the music is a young fellow from Aliquippa, Pa., named Henry Mancini who came to town the other day and modestly said, "Blake Edwards has set up an extraordinary combination of moods in 'Peter Gunn.' When you stop to analyze it, you can't find the boundaries where the music stops and the show takes over."

The musical motif of the series is sparked by the fact that Gunn is forever hanging around a jazz spot called Mother's, of all things, where Miss Albright is employed as a singer.

The songs she sings are recognized pop numbers. Mancini composes all other music heard on the show a total of 10 hours for 39 weeks—which, he agrees, is a great deal of original music.

He doesn't begin composing until a show has been filmed. Then his music is scored into the film. It appears that the show will go a long time with its steadily increasing audience. And now various producers have plans in the works for five other network TV series using a similar musical formula.

Is jazz really that popular?

"The jazz audience is not a vast

one," Mancini said. "It's specific and special. We've reached it—and beyond it into a larger audience by associating jazz with story and characters."

## MORE APPEALS FROM SCHOOLS ON FIRE ORDERS

HARRISBURG (AP)—The State Industrial Board will hear more appeals Feb. 26 against orders directing that safety repairs be made in school buildings or classes be discontinued.

"This is a regular meeting of the board but the major portion of it will be devoted to hearing these appeals," said Michael J. Cielo, board secretary.

The board Tuesday heard appeals by representatives of more than a dozen school boards asking for more time in which to comply with safety repair orders issued by the State Labor and Industry Department.

### Why So Long?

A Centre County school principal asked the board why it took the state half a century to decide that some schools in Pennsylvania were fire hazards.

"They have used his building (Milesburg elementary) for 75 years. Why is this building so dangerous all of a sudden to a point that you order it closed within 24 hours?" asked Paul Runyan, supervising principal of the Bald Eagle Joint School District.

William L. Batt Jr., labor and industry secretary, replied that a recent Chicago fire that killed 90 children and nuns "made us change our requirements and that is why your school has been declared in need of safety repairs."

### 150 Have Orders

Runyan said he would convey the explanation to his local school board but predicted it would get a cool reception.

He pledged, however, that his district would "do all it can to comply with the orders."

More than 150 schools have been ordered to make repairs or close down all or part of their operations in a drive launched three weeks ago.

Meanwhile, the campaign got the full support of Gov. Lawrence. He said it was necessary to guarantee the safety of children and added it is "very annoying to have these dangers abroad."

### Ask Clarification

Asked at his first formal news conference Tuesday why the orders were issued only recently when the fire hazards were in some cases long standing, the governor replied:

"I don't want to criticize any other administration."

In other petitions, Seymour Stere, supervising principal of the high and Madison schools in the Millville Area Joint School Board of Columbia County, asked the board to "clarify some of the orders given the schools regarding what exactly is fire resistant material."

He noted that the district "in plain words is hard up for money to make these alterations if they

Stere, like most of the other petitioners, asked for an extension of time to install temporary and then permanent fire walls in the buildings instead of open stairways. In most cases the open stairways were the reason for the closing orders.

## Cuba Lowers Age Limit So Castro Can Be President

HAVANA (AP)—Cuba's revolutionary government reportedly has lowered the presidential age limit from 35 to 30—thus opening the door to Fidel Castro, 32.

Presidential Palace sources said the Cabinet decree changing the constitutional provision was contained in a special issue of the official gazette Monday night.

Dr. Osvaldo Dorticos, a legal expert for the provisional government, said the change was not made to benefit Castro specifically.

The revolutionary hero has denied he wants to be president, but various leaders of his movement consider him the logical choice. He and Provisional President Manuel Urrutia have said the country should be ready for elections by June 1960.

Constitutional provisions normally can be changed only by a Constituent Assembly. But since the overthrow of President Fulgencio Batista on Jan. 1, the revolutionary forces consider themselves the "source of law" and the provisional government changes the constitution by decree as it sees fit.

On the labor front, Havana's vital tourist trade was threatened once again by a nationwide strike of restaurant and hotel workers called for Thursday to protest the government's continued shutdown of the gambling casinos.

Union President Alfredo Rancano, defying Castro's stay-at-home appeal last Saturday, said the walkout would idle more than 20,000 workers.

Rancano estimated 10,000 musicians, cabaret artists and other casino employees had been laid off because the rebels closed the gaming houses when they took over.

War crimes executions continued with the firing-squad killing in Bayamo of three Batista soldiers on charges of hanging rebels. In Santa Clara, a former army captain convicted of war crimes also was shot. These brought the unofficial total of executions to 202.

## LAWRENCE TO HAVE BUDGET BY MARCH 2

By RICHARD L. GRAVES

HARRISBURG (AP)—Gov. Lawrence today geared his budget-making schedule to a March 2 target date for presentation of a spending program expected to approach the \$21,250,000,000 mark.

But he emphasized that the budget will hinge on a tax program to finance it.

"We can't intelligently move into action on a budget without knowing what revenue we will have," Lawrence told his first news conference since he took office Jan. 20.

### No Speculation

He declined to speculate to newsmen Tuesday on an over-all budget figure or what specific taxes would be recommended to fill an expected gap of some 400 million dollars between 1959-60 needs and present revenues.

He said he did not want to "make any commitment on any phase of the tax program" for fear it would affect the planning of his bipartisan Tax Study Committee.

"I'm hoping they will come up with an unanimous report," said Lawrence. He said the make-up of the group, with business, labor and government interests represented, would lend support to getting the program through the Legislature.

### Possibly Acceptable

"It's not beyond the pale of possibility that the Assembly will accept the suggestions for taxes they will bring in," he contended.

Lawrence was thoroughly at ease in his first formal meeting with Capitol Hill newsmen. He

rocked in a huge swivel chair behind a broad desk. Newsmen were ringed around him. He answered questions quickly and positively.

Though he said he hoped for a unanimous report from his tax advisory group, he gave newsmen a flat "no" when asked if he would give a blanket endorsement to such a report.

### Answers Questions

He answered questions on these subjects:

**Furman-Torquato**—There would be top-level places in his administration soon for former Lt. Gov. Roy E. Furman and John R. Torquato, Cambria County Democratic chairman and former labor and industry secretary.

"I'm very anxious about this," he said. "They're both deserving and good friends. They're capable men."

### Review Road Priority

Highways—Highways Secretary Park H. Martin has been ordered to review a five-year priority allocation for federal interstate road construction.

An objective, the governor said, would be to see what can be done about adding the Anthracite expressway and the Erie-Pittsburgh Freeway to the priority list. A previous report did not list the two proposed projects on the basis that other roads were more justified traffic-wise.

**Flood relief**—Lawrence said he would go to Washington Feb. 26 to join with the Pennsylvania Congressional delegation in drafting a federal flood relief program for this state.

### On McCartney Delay

Turnpike Commission—No promises of patronage were made to Senate Republicans in exchange for the rapid approval of Joseph J. Lawler's appointment to the Pennsylvania Turnpike Commission.

## SEE M'BRIDE IN LEAD FOR PARTY OKAY

HARRISBURG (AP)—Justice Thomas D. McBride appeared today to be a front-runner for organization endorsement for the Democratic nomination for a full 21-year term on the State Supreme Court.

The Philadelphia Democrat, who served as former Gov. Leader's attorney general before he received an interim appointment to the high bench last year, already has announced his candidacy.

A prominent Democrat, who asked not to be identified, said opinion seems to be running strongly in the 71-member Democratic Policy Committee to slate McBride.

### No Endorsement Plans

"I have done nothing within the Policy Committee," McBride told port.

Gov. Lawrence told his news conference Tuesday he had no ideas at this point about endorsing Democratic candidates for a place on each the Supreme Court and the Superior Court.

The Policy Committee meets here Friday to discuss candidacies and make endorsements. Feb. 23 is the first date for circulating nomination petitions for the May 19 primary election.

### Had Backed Eager

Lawrence is known to have supported Judge Michael J. Eagen of Lackawanna County for the Supreme Court vacancy last year. But Leader went ahead and appointed McBride.

The Democratic race for the Superior Court seat is wide open. A Democratic source said a host of names was under consideration. On the Republican side, Judge

cus in approving the appointment of Frank McCartney, Lansford, as state police commissioner.

"All I know," he added, "is that a number of senators said they were for him."

### Silent On Barr

Politics—He said the Democratic Policy Committee would meet here Friday to discuss a slate of judicial candidates for the May 19 primary election. He has not made up his mind about endorsing Justice Thomas D. McBride, Philadelphia, for a full 21-year term on the Supreme Court.

An Allegheny County judgeship weeks, he said.

vacancy would be filled in two. The governor refused to take a position on whether Sen. Joseph M. Barr, Democratic state chairman, should run for mayor of Pittsburgh.

# LESABRE, the Buick

you can own  
for only \$200 more  
than the best models of the leading low-priced cars...

This is in no way a "stripped" car you're looking at. Come in and study the manufacturer's suggested retail price of a Buick LeSabre like this, equipped with Twin Turbine automatic transmission, radio, heater, white sidewall tires, and anything else you want in your next car. Then do the same to the top models of the leading low-priced three, and you'll find the statement above stands up.

### What a difference for only \$200!

Now think how much more you'd enjoy a Buick. A comfortable, substantially built automobile. A car with the finest ride in all Buick history. A car with Buick's exclusive fin-cooled brakes, and the smoothest type of transmission

money can buy. A wonderfully quiet and greatly respected car!

### Owners report QUALITY outstanding

Your money in a Buick today puts you in on the ground floor of what promises to be a long new time of leadership for Buick cars. "My sixth Buick and the best I ever owned!" ... "Best-operating car I've driven in thirty years!" ... "Much the best Buick yet!" ... Reports like these mean extra pleasure in your Buick ownership ... and they mean hard dollar value when the time comes to trade. It all adds up to the best proof in 50 years that: "WHEN BETTER AUTOMOBILES ARE BUILT, BUICK PEOPLE WILL BUILD THEM!"

### New in gas economy, too!

In planning the '59 Buick, the new Wildcat engines, transmissions, and axles were all engineered to work together for greater gas mileage. Across the country owners tell us they are getting 15 to 20 miles per gallon in the '59 Buicks. And in a recent thorough test of Buick LeSabre against another car of comparable size and a good reputation for economy ... the Buick won in every case under all kinds of driving conditions.

So we think we've got a new kind of value in this Buick LeSabre. And we suggest you go to your Quality Buick Dealer's and see whether you agree before you buy a new car.

## James MARLOW Reports

The Associated Press

WASHINGTON (AP)—Secretary of State John Foster Dulles has had problems which pursued him like a devil. He inherited crisis when he took office in 1953 and has had to face one crisis after another ever since.

In trying to solve them he became the most traveled secretary of state in history. He seemed to feel that handling foreign affairs required not only his personal attention but his on-the-spot attention.

This zeal for first-hand dealings didn't save him from criticism. On the contrary he's been criticized for being away from home base too much, for not relying more on the collective brains of his advisers. His has been called a one-man show.

### Faces Operation

But his efforts may have worn him out. He says he expects to be back soon from the hernia operation he is preparing to undergo. That remains to be seen. Illness has been piling up on him: an intestinal cancer operation in 1956, an inflamed colon in December, a severe virus attack in January, and now this.

When he became secretary six years ago he inherited the war in Korea and the war in Indochina. Truce came to Korea in time but before the shooting stopped in Indochina half of Viet Nam was lost to communism. The Red Chinese pushed him into repeated crises with their shelling of the Nationalist Chinese islands off the Red China coast. There was the crisis in Egypt when President Nasser seized the Suez Canal.

### Steady Red Push

Some of Dulles' critics suggested he himself precipitated the Suez crisis with the curt way in which he refused Nasser American money to build the Aswan Dam.

But, as if Red crises were not enough, this country's French and British allies and its friend, Israel, shook the world with their

invasion of Egypt. Last year when the Iraq government fell, American troops were sent to Lebanon. And always, there was the steady push from the Soviet Union and Red China.

### Inherited Problems

Dulles' problems had their roots in the problems of his predecessor, Secretary of State Dean Acheson. Yet in a way they were different while remaining the same.

Acheson and President Truman finally decided that the Soviet Union and Red China had pushed far enough and had to be stopped. The result was not only the war in Korea but a series of alliances intended to chill the Communist ambitions.

Yet in the Truman-Acheson days the Soviets and to some extent the Red Chinese, who had only recently seized control of the China mainland, were beginning to emerge as enormous powers, particularly the U.S.S.R. as it grew in industrial and military potential.

President Eisenhower and Dulles have followed the basic Truman-Acheson foreign policy: the policy of containment, of trying through military alliances and foreign aid to keep communism from advancing any further.

### To Soon To Appraise

What Truman and Acheson, and after them Eisenhower and Dulles, sought was to stop the pressure of communism dead in its tracks. They never found the complete answer.

Both the Soviet Union and Red China are expansionist and, because of their growing power, determined to push. No one yet, despite the endless negotiations, has come up with an answer to the problem.

But Dulles' problem was different from Acheson's in this way: in the years since Dulles took office the Soviet power, industrial and military, has become gigantic. The Red Chinese are making a break-neck effort to catch up. There is no doubt Eisenhower considers Dulles one of the great secretaries of state. He has said so. History will have to decide just how good or poor a secretary Dulles has been. It is a little too close for a cool appraisal yet.

When Clem won the Washington Park Handicap last year he beat the 26-year-old record of the great Equipeuse, Clem, with 110 pounds, ran the mile in 1:34.

### WEDNESDAY

### HIGHLIGHTS

7:30—(4-8-11) WAGON TRAIN — "Last Man" starring Dan Duray. Flint McCullough discovers a half-crazed group of emigrants and allows them to join the train.  
8:30—(2-9) TRACKDOWN—Starring Robert Culp. Renewal of a 15-year-old feud engages Texas Ranger Gilman in a most dangerous assignment.  
9:30—(7-13) DONNA REED SHOW — Donna, in a match-making role, arranges "star-crossed" dinner meeting between a

bachelor doctor and a mooning librarian friend.  
10:00—(2-9) TV HOUR—Jean Pierrae Armont and Gloria Vanderbilt star in "Family Happiness." The story is set in 19th century Russia and provides a vividly realized picture of the nobility of that period. While exploring the contrast of life on a country estate with that in the pressured society of St. Petersburg, the story also dwells on the inner conflicts of its highly individualized characters.
